Ayer's Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color with the gloss and freshness of youth. Thin hair is thick-

ened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follieles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sedi-ment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the langs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be some infections of the throat and impact that can be some infections of the throat and impact that can be some infections of the throat and impact the distribution against sudden attacks of **SSP**, it should be kept on hand in every **amily, and indeed as all should be provided with this antidate for them. The Strong Man Armed. The I-land of San Juan has been 'paregorically ! (as Mrs. Partington would express it) described as 'The Strong man armed, keeping the door of the British Pav ctfic. Considered apart from the merits of the international dispute, it must be perfectly clear that the possession of that intrinsically worthless Island is of infinitely greater importance to British than to American interests. To the former it constitutes the key to the only outlet on the Pacific. To surrender that key may be regarded as, indeed, trintamount to retiring from the Pacific. And does not retirement from the Pacific mean retirement from the Continent? To the latter the Island in question can really possess little or no value or importance, save in so far as it gives an undue advantage over a neighbor. If he really means to be an honest and peaceful neighbor, Uncle Sam has no need of San Juan. His frontage on the Pacific is ample enough, and his outlets are numerous enough, and why should be wish to hold the key to our sole outlets. Raçine is ample enough, and his outless lare humerous enough, and why should he wish to hold the key to our sole outlet? His very desire to lobtain possession of that key is calculated to create doubt and suspicion as to his motives and intentions. Looking at the matter in the light of the rights of the respective claimants, there would appear to he ive claimants, there would appear to be little doubt that to Great Britain the Island belongs; yet when we find our neighbors, from their leading statesmen at Washington down to their most obscure stump-politicians in Washington Territory, declaring in the most emphatic terms that the Island belongs to them, and that they mean to have it, to hope to settle the question by the You're another' argument would be as unwise as undignified. The wolf in the Jable, was not the less pronounced in its charges against the lamb because those charges were groundless. It rather sought, by the arder of its declamation, to cover the badness of its cause; and, without any intention of accepting the full application of this figure, it may well be concluded that Great Britain cannot hope for either justice or a final cannot nope for either justice or a final adjustment of the dispute by progracting this assembly international wranging. Let us have this dispute set led—peaceably if we can; but let us have it settled! Although this international question may not be regarded as formed to the Delegation now leaving for Citiawa, yet it is one which is most intimately connected therewith-one, in fact, which cannot well be separated from it. Confederation-a British Dominion extending from the Atlantic to the Pac fic, must, indeed, lose its true force and significance with the loss of that little, and apparently insignificant leland. Our neighbors know this full well; and knowing it, they are all the more American Empire in their pocket! Al-though this San Juan question does not strictly enter into the 'conditions' upon which the Government at Ottawa will which the Government at Ottawa will be asked to admit this colony into the Dominion, yet it so greatly affects the whole question that it would appear to be impossible to overlook it; and we trust, therefore, that the Governor will have instructed the Delegates upon this most important and urgent ques-That the Government at Ottawa cannot settle the San Juan dispute we need not to be reminded; but, having a very direct and deep interest in that dispute, they are specially entitled to urge opon the Imperial Covernment the necessity of a speedy settlement, which will give the Island to the Dominion. | Some two years ago, while in manion. Some two years ago, while in London on business connected with Cannada, Sr George E. Оттама, Аргіі 2016, 1870. DEAR MR. PEARKES: - I wrote to you on March 16, giving you an account of the dungers we ran at sea and of my safe arrival here. As you will have learned, the Oity of Boston, less fortunate than ourselves, has never since been heard of and is undoubtedly lost, together with every soul on board. Many of the pussengers had embarked as Halifax on their accustomed spring-trade trip to Rogla: 3, and it appears that the wives of not less than filteen persons there of note or well-to-do, will have become wid-

ows and been left wi h their young families

to be wait their bereavement.

Since my last I have been very nowell, nor have I yet entirely recovered, which I attribute to the change of elimate and the delectable atternations of siest and snow which we have been enjoying here. The thew set in, bowever, about a week ago, sluce which the weather has greatly improved and I believe we shall at last bid adieu to burning hot tone have been in frequency ment six months old.

we shall at last bid added to burning not stoves, bot air, frozen meat six months old, and the glacial period generally.

My proposals for the construction of an overland reirond, which I mentioned to you in my last, have now been before the Privy Council for nearly three weeks and will, I have reason to believe, be seriously coreidered. But what with the Red River difficulties which are avery day becoming more culties, which are every day becoming more complicated, the Fedian movements on the frontier and the approaching close of the Sussion, the Muisters have not a moment to themselves—so much so that they sat in council on Good Friday till past 6 o'clock in the evening. Nevertheless, as the Govern-ment and everybody here are most anxious that the railroad should be built, my proposals are likely to be discussed and a negotiation possibly entered into in order to arrive at such terms as the Government may be willing to grant and with which a company could be raised; so that a bill could be introduced to that effect at the next session in the Attume, when it is to be honed the Red the Autumn, when it is to be hoped the Red River difficulties will be at an cid. As I see nobody here in a position to start a rival compacy I think I may in that case runs a

gate is no relation of the latter | as being impicated or having assisted in the crime—but I imagine they will be released. The third delegate, Judge Black, has also arrived, but delegate, Judgs Black, has also arrived, out he is a respectable man and keeps altogether aloof from the others. I believe the government are very much embarrassed how to deal with these soi disant of legate. We have also Dr Shnitz, Mr Mair and a dozen other refugees from Ren's tyranny. Their property has been conflected and everything belonging to them pundered. Dr Shnitz store was plundered to the amount of \$19,600, and I know a London merchant who will lose \$50,000 worth of furs. A rather impusing force, composed of volunteers and troups of the line, will leave for Thunder Bay and Fort Gairy as soon as the ice will permit, which will probably be in the course of another week—but it will take the expedition a full month, or say to the end of May. tion a full month, or say to the end of May, to arrive at Fort Garry. It will follow Mr Drawson's rearte by Rainy Lake and the Lake of the Woods—and it is to be hoped will

bring the half breeds to their setses.

These Red River difficulties, unless settled, will be another obtained to the federation of British Columbia, to say nothing of the proposed terms as prepared by the Gov-ernor in Council—a copy of which appeared in the Ottawa Tones of March 21; for some of the demands are considered as inadmissible. of the demands are considered as inadmissions. Such as the ancount grant on a supposed p pulation of 120,000; the guarantee for a graving deck, the million dollars a year for a radicoad in British Columbia, which would have to be managed differently, the hospital, lucationsylum; and penitentiary, which are all local matters. I believe the Government here will be most willing however, to grant here will be most willing, however, to gran

very fair terms, and I have no doubt that matter will be cashly arranged.

You can write to me, it so inclined, 'Russell Heuse, Ottawa,' where I shall 'probably remain some little time.

AT IT AGAIN. - Washington Territory lis again in the throes of another election, -election of Precinct, County, and Teritorial officers -- at least as far as they are elective, and that is very far! For Delegate to Congrass Mr. Garfielde, the present Delegate, is being again run in the Republican interest, and, we are led to believe, with some prospect of success. It would appear, however, that Marshall Bling, a powerful man, has also been put forward on the Republican ticket, possibly, however as a Blind. Should both go to the polls, and thus divide the vote of the party, nothing is more likely at that Judge J. D. Mix, the Democratic nomi nee, will slide in under such a Mized condition of parties. As it is, the canvass goes on bravely. Each party has a steamer under charter, and every point on the Sound which can boast of a Baker's dozen of citizens is honoured with a public, "meetin," and no end of "spreadeagle" talk. Our neighbours are heavy on elections and powerful on the stump; yet it appears to us that they have a trifle too much of this sort of thing for their good. I: would be interesting to calculate the precise cost in time, money and talk squandered on those elections.

THAT PERKY ISLAND - Like their Republican brethren, the Democrate of Washington Territory have issued their "Platform," and like theirs, it consists of "seven planks." On one point only is there oneness of sentiment, -both mean to have San Juan Island. The seventh "plank" in the "Democratic Plat-form' runs thus:-"We hold that the nation. al bonous demands the prompt enforcement of our claims to San Juan Island.' We beg our neighbours over the water to mave their minds perfectly easy about San Juan, as the British Lion is amply competent to guard it and "the national honour" at the

ADMIRAL FARQUEAR appears disposed to extend a helping hand to every scheme for the advancement of public recreation and amusement, for we learn that he has extended his patronage to the Regatta as well as the Races, and manifests great interest in the prosperity of both sports, Admiral Farquhar has also promised that the band of H. THEATRE ROYAL .- The performance this evening will be under the distinguished patronage of Admiral Fargubar and the Officers of H. M. Fleet. By particular request "Aladdin, or the Wonderful Scamp," laughable musical exuravaganza, will be given. It is expected that there will be a large and bril iant assemblage.

THE PLEBISCITUM .- The result of the popular vote in France fully sustains the Emperor. A majority of 5,000,000 is a pretty strong andorsement of the liberal government lately granted France, and the devotion of the Army is an additional pledge of internal peace, One-man government in France is gone forever and is succeeded by Responsible government with M. Ollivier at its head.

NEWFOUNDLAND FLOUNDERING .- The Anti-Confederates of Newloundland would not appear to have sent a particularly brilliant set of Statesmen to the new Council. It appears that they have passed an address to Earl Granville, remonstrating against the proposed withdrawal of troops from the island. The reasons urged against that measure are that the Newfoundland figherics ars carried on by merchants in the United Kingdom. That those who make money in the Island retire to England, thus enriching the latter and impoverishing the former. That there is no accumulated capital in the Colony to foster business, and that the Island is as much a part of Great Britain as any one of her mutitime cities. Finally, that it was the first colony in America postessed by Great Britain, and the loyalty of its people is such that it will be the last to ching to her. Some of these reasons are not very cogent, and others scarcely come gracefully from Newfoundland lips.

TREATRE ROYAL, -Last evening ' Aurora Floyd' was repeated with great effect. Mr and Mrs Bates. Mess Mandeville and Mr Vinson sustaining their parts admirably. In the afterpiece of ' Box and Cox' Mr Eller ton, Mr Melville and Miss Cummings threw the audience is to convulsions of laughter. This evening Mis Bates will appear in her great character of Lady Gay Spacker in the comedy of ' London Assurance' ... To-morrow evening the performance will be under he patronage of Admical Farquhar and the Officers of the Fleet.

THE MALT DUNUNG HALLSTON

EDITOR BRITISH COLONIST :- Permit me brough the medium of your columns to correct a few grave errors, into which you nave no doubt unintentionally fallen, in your leader of the 6th int, on the subject of the public meeting held in the Council Chambers outhe meeting field in the connect Chambers on the avening of the 4th., to adopt one of the three modes of supporting the public schools of Victoria district for the current year. Public notice of the meeting was aven, and resident freeholders and householders were invited to attend. The chair was taken, in the absence of the regular this content was taken, in the absence of the regular public and has a member of the Baard, is the chairman, by a member of the Board, us the inw directs. After some irregular discus-sion, Mr. Wallace moved the first resolution that an application should be made to the Governor, for a som of filteen hundred dollars in aid of the common schools of the district for the current year; seconded by Mr. McMillian, and passed unanimously. Mr McMillian moved that further action be dewas heard from. This motion was second-ed. To this Mr. Heebard moved an amendment that the voluntary rate on the mode by voluntary subscription be adopted by this meeting, seconded by the undersigned. Mr. Wallace, in moving his resolution, took occasion to advocate the propriety of excluding religious instruction from the common schools. Mr. Hobbard insisted of the opposite view, in a very decided some Ex. Mayor McDonald believed that no achools would inst long from which the Bibe was excluded. Mr. Carey inquired what version of the scriptures would be selected in that event. All the gentlemen got a tolerably fair hearing white advocating their respective schemes. The principal interruptions from the meeting were, cuar, order, question, we didn't come here to discuss religion come to business, put the resolution. This language was repeated over and over again by the meeting. casion to advocate the propriety of exclud-

But the chairman seemed deaf to every remonstrance, and a lowed this irrelevant discussion, to proceed. The meeting became indiguant, demanding that the amendment and resolution should be put from the chair, and the business, for which they were legitimately assembled, concluded. But in variable materials and included the control of t one of whom undertook to speak against time rather than allow any notion to be taken either on the resolution of the amendinger, and under the firmsy protes, that the ordiand under the filmsy protes, that the ordinary enairman should preside before mything should be definitely sectied,—the chair was vacared,—the meeting loudly protesting against being called to winess a solemn farce. I am perfectly amazed that a gentleman having enchalus means of knowing the truth, could protein in a leading article. That a pertain class came there in the force and as a religious body with hostile intent act to oppose state secular education, and were too seccessful in dote ting the legitimate object of the meeting? I have, I think, abundantly seem upon whom tails the

And so far as I have an opportunity of knowing their sentiments, most of my correlitions.

knowing their sentiments, most of my correligionists are of my way of thinking. However, on this like the members of other denominations, we agree to differ, Now sir, my motive for supporting the amendment, in preference to a forced rate, and I so estated to the meeting, was that the compulsory rate, which forces the labourer, the meeting man of small means, to pay as much us the man of large means and great wealth, sa monstrous piece of injustice. Not do s the evil stop there, for the millionaire, who draws his large revenue from the cooky, and sponds at in Paris, Loufrom the colony, and spendant in Paris, Lon-den, New York, or elsewhere out of the country, is lexempt alforether, and is hot competled to contribute one dollar. Thus a Yet, not a single member of our mode Yel, not a single member of our mode legislature that I am aware of, made an at legislature that I am aware of, made an attempt to remedy this crying grievanto. Let property, or location or both, be equally taxed for the support of the common sensols. Then, and not till then, will the system work harmonicesty.

Thanking you for allowing this lengthened communication a place in the British Colonist, I have the homor to remain. Mr Editor, your obedient servant. W. P. Farron.
